Temperature of Leaves.

Some recent investigations of the  
temperature of leaves made in the  
deserts and mountains of Arizona and  
in the Santa Lucia Mountains of  
California have resulted in the dis-  
covery that leaves show a very rapid  
change of temperature at times. These  
fluctuations are almost constantly go-  
ing on. Changes of from one to three  
degrees Centigrade were observed in  
from 20 to 60 seconds, and if a mod-  
erately strong wind is blowing the  
change may amount to five degrees in  
30 seconds.

Never criticize anything at a charity  
bazaar; you can't tell who made it.

## The Bulletin

Norwich, Wednesday, Oct. 22, 1919

### THE WEATHER.

#### Conditions.

Pressure has fallen rapidly in the  
eastern states and a disturbance was  
central Tuesday night north of Lake  
Ontario. This disturbance has been at-  
tended during the last 24 hours by  
showers in the north Atlantic states.  
The temperature has risen generally  
in the eastern states.  
In the middle Atlantic and New En-  
gland states showers in the morning  
will be followed by partly cloudy and  
cooler weather Wednesday afternoon  
and generally fair weather on Thurs-  
day.

#### Winds Off Atlantic Coast.

North of Sandy Hook fresh south  
to west.  
Sandy Hook to Hatteras fresh south  
and southwest.

#### Forecast.

Southern New England: Showers,  
followed by clearing Wednesday, cold-  
er Wednesday night; Thursday partly  
cloudy.

#### Observations in Norwich.

The following records, reported from  
The Bulletin's observations, show the  
changes in temperature and the baro-  
metric changes Tuesday:

	Ther. Bar.
7 a. m.	42 30.00
12 m.	40 29.99
6 p. m.	42 30.00
Highest 60.	

Predictions for Tuesday: Cloudy  
and warmer, showers at night.  
Tuesday's weather: As predicted.

#### Sun, Moon and Tides.

	Sun	Moon	High	Water	Low
DAY.	h. m.	h. m.	h. m.	a. m.	p. m.
20	7.04	6.52	8.12	2.52	
21	7.07	6.59	8.56	3.24	
22	7.07	6.59	9.35	3.54	
23	7.08	6.57	10.12	4.25	
24	7.09	6.54	10.45	4.55	
25	7.10	6.54	11.20	5.23	
26	7.11	6.54	12.00	5.54	

Six hours after high water it is low  
water, which is followed by flood tide.

### GREENEVILLE

St. Mary's parish is planning for a  
big patriotic celebration of the first  
anniversary of Armistice day, Nov.  
11th. The pastor, Rev. William A.  
Keece, has engaged Pulaski hall for the  
exercises that evening.

The services of Lieut. James Walsh  
have been secured to drill the Boy  
Scouts, Co. A, of St. Mary's parish.  
Lieutenant Walsh has had valuable  
experience in army camps and is just  
the leader to inspire and enthuse the  
boys.

### MAKES WEEKLY REPORT

#### OF COMMUNICABLE DISEASES

The weekly morbidity report of  
communicable diseases for the week  
ending Oct. 18, as issued by the state  
board of health covers the following  
cases in Eastern Connecticut towns:

Diphtheria—New London 3, Norwich  
(city) 2, Stonington 1, Rockville 3,  
Brooklyn 1, Sterling 1.  
Measles—(Measles) reported epi-  
demic in Moosung Plainfield 1.  
Scarlet fever—New London 1, Rock-  
ville 2.  
Cerebro-spinal meningitis—Wood-  
stock 1.

There have been 96 cases of diph-  
theria reported in the state, 8 of  
whooping cough, 23 of measles, 6 of  
typhoid fever, 11 of influenza, scarlet  
fever 65.

Scarlet fever has shown large in-  
crease for September and October over  
corresponding months of past five  
years. An outbreak of scarlet fever in  
Terryville last week was traced to  
four unattended cases in one family.  
The mother thought the children had  
measles.

### OVER 1,000 COMMUNIONS

#### IN POLISH PARISH DEVOTION

The forty hours' devotion which be-  
gan with the high mass Sunday in St.  
Joseph's church, Cliff street, closed on  
Tuesday evening. The pastor, Rev.  
Ignatius J. Maciejewski, considered  
the devotion very successful, since in a  
parish of 3,000 souls there were 1,200  
communions during the two days.  
Assisting the pastor during the de-  
votion were the following vicars: Fr.  
priests: Rev. Fathers Joseph Cyburski  
of New Haven; Paul Waskev, Derby;  
Paul Piechowski, Union City; Theodore  
Zimmerman, Waterbury; Alexander  
Kowalczyk, Terryville; Peter Kacz-  
marek, Hartford; Stanislaus Feder-  
kiewicz, Thompsonville; John Cepka,  
Meriden; Louis Rusin, Stamford;  
Boleslaw Dukiwicz, New Britain;  
Stanislaus Blazewski, Meriden; Alex-  
ander Czakowski and Stanislaus Sal-  
omon New London, and Maximilian  
Solejski, Middletown.

### Dr. Johnson Will Hearing Postponed.

The hearing on the final acceptance  
of the account of Executor Earl Ma-  
theson in the matter of the estate of  
Dr. Nathan Johnson, late of Bezzard,  
which had been set for Monday of this  
week, was postponed to Tuesday after-  
noon at 2 o'clock. On Tuesday an-  
other adjournment was taken, this  
time to next Monday afternoon before  
Judge of Probate Wareham W. Ben-  
tley of Bezzard.

### Simple Way To

#### End Dandruff

There is one sure way that has  
never failed to remove dandruff at  
once, and that is to dissolve it, then  
you destroy it entirely. To do this,  
just get about four ounces of plain,  
common liquid arvon from any drug  
store (this is all you will need), apply  
it at night when retiring; use enough  
to moisten the scalp and rub it in  
gently with the finger tips.

By morning, most if not all of your  
dandruff will be gone, and three or  
four more applications will completely  
dissolve and entirely destroy every  
single sign and trace of it, no matter  
how much dandruff you may have.  
You will find all itching and digging  
of the scalp will stop instantly, and  
your hair will be fluffy, lustrous,  
glossy, silky and soft and look and  
feel a hundred times better.

## FIVE YEARS AS A WEATHER PROPHE

The mantle of the late Horace  
Johnson of Haddam, whose weather  
prophecies had state-wide repute for  
many years, seems to have fallen upon  
Herbert W. Lucas of the Central  
building, 43 Broadway. For the past  
five years he has been making weather  
prophecies with signal accu-  
racy, as the results show, for he has  
kept fairly between his predictions and  
the actual weather conditions that  
show the two have run very close to-  
gether.

Starting as far back as the winters  
of 1914 and 1915 his weather prophecies  
came through all right and ever since then  
he has kept the figures and statistics to  
prove his claims to foretelling the  
seasons. Some of these comparisons  
he gives as follows:

On Dec. 11, 1916, Mr. Lucas predicted  
a cold winter with quite a lot of  
snow. This came true up to March  
22 there was a severe winter and  
quite a fall of snow on that date.  
On Oct. 20, 1917, he warned that we  
ought to prepare for a very stormy,  
windy, cold winter, a regular old fash-  
ioned New England winter. On Nov.  
24 he followed this with the statement  
that we ought to get out the skates and  
sleds on Thanksgiving day, and sure  
enough they did, with the ice 1-2  
inches thick and snow enough for  
sliding on Broadway hill and other  
places. Right along through the win-  
ter the weather played into his hands.  
On Dec. 14th ten inches of snow fell,  
on the 15th the ice harvest began, 12  
inches thick and better. All the ice  
houses were filled by Christmas. These  
are his temperature records for that  
winter.
